DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The George Old's Brick House is located on Gregory Road, approximately one mile south of Tunis Mills Road in Talbot County, Maryland. The original section of the house appears to have been built in the mid nineteenth century.

The original section is now the central portion of the house. It is a two story, three bay structure of common bond brick. Interior end chimney stacks are located at each end of the gable roof. The east and west facades both have central doorways and large pane sash windows in the other bays. The windows have flat arch marble lintels with keystones, wood sills, and green shutters. The west facade has a one bay, one story entrance porch with a gable roof. There is evidence that a similar porch once existed on the east facade, but it has been replaced by a modern full portico.

On each side of the original section, two story frame wings have been constructed which have a modern fenestration and are aluminum sided. Attached to the south wing is a one story screened porch, while the north wing has a modern one story service extension.

The interior of the original section has been remodeled as a single room with the staircase constructed against the east wall. Original features have either been removed or obscured by modern colonial style details.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The original section of the George Old's House is representative of lasting influence of the late Federal style on domestic architecture in Talbot County. Many of the original features of this house, however, are no longer present.
